

St Joseph's College
Language (MOI) Policy (2024-25)

1. Our Aim

- 1.1. The school adopts a whole-school approach to language learning.
- 1.2. The school promotes bi-literacy and tri-lingualism. We seek to develop our students' proficiency in English and Chinese Languages (including Putonghua) for study, work and leisure, provide them with opportunities for personal and intellectual development, extend their knowledge and experience of other cultures through both English and Chinese medium of instruction, and help them to overcome the challenges they may meet in this rapidly changing and keenly competitive knowledge-based society of Hong Kong.
- 1.3. While upholding our EMI status and providing a language environment conducive to learning in EMI, we ensure a rich environment for our students to learn Chinese including Putonghua adequately. For students who do not use Chinese as their first language, i.e. non-Chinese speaking (NCS) students, they have to attend Chinese for NCS course throughout S1-S6. The subjects provided are shown in the appendix.

2. A Genuine Language Learning Environment

- 2.1. Besides Chinese, Putonghua, and Chinese History, all lessons are conducted in English.
- 2.2. Outside the classroom, teachers are expected to communicate with students in the same language as they use in the classroom.
- 2.3. Students are expected to speak in English at school, inside and outside the classroom.
- 2.4. Proper language should be used for display boards and all publicity documents such as circulars and notices. All written documents shall be in proper written form. Mixed codes are not accepted.
- 2.5. All school and class announcements shall be made in English (except for those related to subjects taught in Chinese or clubs and societies related to Chinese Language and Culture).
- 2.6. All messages or notes written on the blackboard shall be in proper written English/Chinese as required. Mixed codes are not allowed.
- 2.7. All assemblies shall be conducted in English.

3. Cross-curricular Language Learning

- 3.1. We enforce cross-curricular English learning. Students are encouraged to use English in discussions actively and confidently in all subjects concerned.
- 3.2. All subjects shall collaborate in order to promote reading to learn and work for enhancing the overall learning effectiveness and capacity for life-long learning and whole-person development of our students.
- 3.3. We enforce the requirement that non-language subject teachers teaching through English should at least be able to communicate intelligibly, and their use of English should have no adverse impact on students' acquisition of the English language. They should meet the specific requirements set out by EDB and attend a minimum of 15 hours of EMI-related professional development activities every three years.
- 3.4. We observe very carefully the language ability of our S1 intakes and set out support measures to ensure that the relatively weaker students are able to overcome language barriers.
- 3.5. Putonghua is used to conduct Chinese language lessons in certain selected classes in S1, S2 and S3. This arrangement is reviewed and evaluated every year.

4. The English Department

- 4.1. The English curriculum shall enhance our students' learning experience by providing a language-rich environment through:
- providing greater opportunities for learners to use English for purposeful communication both inside and outside the classroom;
 - making use of learner-centered instruction to encourage learner independence;
 - making greater use of current news and literary or imaginative texts to develop critical thinking and encourage free expression and creativity;
 - promoting language development strategies, values and attitudes that are conducive to effective, independent and lifelong learning;
 - providing opportunities for students to take part in different competitions and activities that promote the language in a fun way, e.g. public speaking, debates, singing performance, writing competition, Battle of the Book; and
 - promoting the habit of leisure reading especially in lower forms through different measures so that students learn the language naturally.
- 4.2. The objectives of the Enhanced NET Scheme are:
- Objective One: To enrich the English language learning environment in school;
 - Objective Two: To enhance the teaching and learning of English with linguistically and culturally authentic materials and resources;
 - Objective Three: To build upon teaching expertise through school-based professional development and collaboration between the NET and English Panel Members (EPMs)
- (The objectives above should be reflected in the Deployment Plan which should serve as part of the overall school-based English Language Teaching Plan.)*
- 4.3. In SJC, the NET is deployed to teach regular English and reading lessons in the junior levels and speaking lessons in senior levels. The NET will also provide students with extra learning experience through lunch and / or after-school lessons / activities.

5. 中國語文課程

中國語文教育的課程是要讓學生獲得全面而均衡的語文學習經歷，並循以下方向發展：

- 均衡發展讀寫聽說能力，全面發展讀寫聽說的綜合語文能力。
